

Planning a closet makeover?

Power before switches helps avoid glitches.

It happens all the time. When customers jump into a full Power over Ethernet (PoE) upgrade, they often jump right *over* the power component. What they might not know is that Uninterruptable Power Supplies (UPS) need to be in place before any new switches are installed.

Switches are part of the user's critical infrastructure and a UPS must be used to maintain uptime and availability. Your customers will be surprised to learn new switches have increased from 150 watts/switch to **over 2000 watts per switch**. This is all the more reason to provide a comprehensive refresh plan that includes power.

This issue isn't limited to a particular type of business or customer – small companies, remote offices, K-12 schools all rely on network closets running off PoE. Make their next upgrade a smooth process and avoid the "glitches" of a project delay. **Plan out their power needs first.**

Example of PoE solution for small or remote office

EATON SKU	PRODUCT DESCRIPTION	INPUT	OUTLETS	DIMENSIONS (HxWxD, in.)*
9PX6KSP	9PX 6K UPS - Split Phase	L14-30P**	(1) L14-30R, (1) L6-30R, (6) 5-20R, Hardwired	6.8 (4U) x 17.3 x 29.77
9PX6K	9PX 6K UPS	L6-30P***	(2) L6-30R, (2) L6-20R, Hardwired	5.1 (3U) x 17.3 x 28.4
9PXEBM180RT	5/6 kVA EBM (add up to 4 EMBs). Cable is 18" in length.	N/A	N/A	5.1 (3U) x 17.3 x 25.4
9PXEBM240SP	6K SP EBM (add up to 4 EMBs), Use with 9PX6KSP UPS	N/A	N/A	5.1 (3U) x 17.3 x 26.6
EMPDT1H1C2	Environmental monitor probe	N/A	N/A	2.26 x 1.48 x 1.15
EMAT06-10	ePDU G3 Managed	L6-30P	(10) C13, (16) C19	1.69 x 19 x 11.8
EMAU06-10	ePDU G3 Managed	L6-30P	(12) C13, (4) C19	3.43 x 19 x 8.39
EMAT09-10	ePDU G3 Managed	L5-20P (5-20P adapter)	(8) 5-20R	1.6 x 19 x 8
EMIT06-10	ePDU G3 Metered Input	L6-30P	(13) C13, (4) C19	1.6 x 19 x 8
EMIU06-10	ePDU G3 Metered Input	L6-30P	(12) C13, (4) C19	3.43 x 19 x 8.39
EMIT09-10	ePDU G3 Metered Input	L5-20P (5-20P adapter)	(8) 5-20R	1.6 x 19 x 8

The solution should also include a **VPM license** which can be purchased in term lengths from 1 to 5 years.
