

SORRY, OLD-TIMER.
MAKE WAY FOR
THE STAR ROOKIE!

Improve your long game with Ferrups FX UPS

UPSgrade your team's defense and get rewarded!

Your old FERRUPS has taken you to the end zone time after time. It's had a heck of a run, but Eaton has just rolled out a game-changer! The Eaton Ferrups FX UPS is a robust, industrial UPS that features a ferroresonant transformer-based, line-interactive topology. This design makes it ideal to power heavy equipment, machinery and automation processes. The FX3100 provides remarkable resiliency and can withstand harsh power environments.

FerrUPSgrade FX3100 Pre-order Promotion

Get a stackable 5% discount on the purchase of any NEW Eaton Ferrups FX3100 UPS when you purchase a startup and return the old unit using UPSgrade.

-  Must be ordered by 1/30/2021
-  To qualify, a customer must register the opportunity and purchase a startup for the new unit
-  Trade in offer only valid on legacy 2.1kVA and 3.1kVA FERRUPS (Part number and serial number of old unit required)

Ferrups Return Label Request Form

Scan QR code to complete form.

The additional discount will also be applied to the startup. This promotion will apply to all Ferrups FX units which have a CTO starting with FX3100.
