

Preparing for disaster just got easier.

IPM 2 monitors your network to keep you on the grid.

For disaster avoidance, nothing beats Eaton’s Intelligent Power Manager (IPM) software. IPM provides the tools necessary to monitor and manage power devices in your physical or virtual environment. Part of the Eaton’s new Brightlayer Data Centers suite, this innovative solution ensures system uptime and data integrity by giving you full network visibility wherever you are.

IPM Benefits

- ✓ Extend runtime for improved business continuity
- ✓ Reduce CAPEX through load-shedding during outages
- ✓ Reduce downtime through graceful shutdown of IT servers and clusters to avoid a crash

If you’re new to IPM, there’s never been a better time to get on board! If you’re a current IPM user, consider the advances available through IPM 2.

To view the range of packages available, from upgrades to free trials, visit Eaton.com/IPM
